Municipalities and school districts continue to request higher volumes of administrative hearing services. Additional program receipt authority allows the Office of Administrative Hearings (OAH) to accommodate the higher service volumes.												
Revenue generated from this activity increased from \$50.0 in FY2017 to \$100.0 in FY2018. Collections so far in FY2019 indicate revenue potential of \$150.0 and increasing to \$175.0 in FY2020. The addition of \$75.0 aligns the program receipt authority with anticipated revenues for FY2020.

The Department of Administration was appropriated general fund authority beginning in FY2017 for work on SB74 - Medicaid Reform; Telemedicine; Drug Database. The department's timeline of work specific to this fiscal note spanned both FY2017 and FY2018. In FY2018, a salary adjustment was appropriated within the Office of the Commissioner, a portion of which attributed to the SB74 fiscal note. The fiscal note appropriation was removed from the budget in FY2019, but the salary adjustment remains. This is a technical adjustment to remove a salary adjustment that is no longer needed.

The Shared Services organization began in FY2018 and provides back-office administrative functions common to all state agencies. This organization model builds a smarter Alaska by reducing administrative costs, improving service quality, and enabling the effective delivery of front-line state services.												
The Office of Information Technology (OIT) was formed in accordance with Administrative Order 284, and is in the process of adopting best practices and centralizing the organization of information technology (IT) resources statewide. This organizational model builds a smarter Alaska by reducing overall IT costs, strengthening IT functions, and maximizing efficiency.												
The FY2019 budget included a statewide unallocated reduction to reflect savings achievable as a result of these efficiency efforts. An initial distribution of the savings has been made at the start of FY2019. The remaining savings will be distributed through the year as areas of efficiency continue to be identified.

The Office of Information Technology (OIT) supports staff through billable rates charged to state agencies. This increase supports the portion of OIT salary adjustments, agreed to through the GGU and SU contract negotiations that will be billed to executive branch agencies. Agencies pay the billable rates to OIT through a variety of fund sources; this increment has been adjusted down to remove the portion of rates that will be paid through non-general fund sources.

Transfer from personal services to travel, services, and commodities to align authority with projected expenditures. Due to budget constraints, training to state agencies has been extremely limited for several years but is needed to successfully implement the enterprise resource planning system upgrade. Services and commodities authority reflect projected expenditures for existing contracts and a computer refresh schedule.

Add Four Analysts for Integrated Resource Information System (IRIS) Upgrade Support												
	PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	4	0	0

Four positions are necessary to implement the Integrated Resource Information System (IRIS) upgrade. The Enterprise Resource Planning (ERP) administrative system, known as IRIS, with integrated procurement, financial, payroll, and human resource components must implement a contractually required upgrade project beginning in FY2019 and is anticipated to take two to three years. An upgrade is essential to ensure the system continues to function effectively, to utilize new features that improve productivity, to resolve known issues and defects in the software, and to ensure the version continues to be supported. These positions are funded by a current FY2019 IRIS upgrade capital appropriation.

The following new positions are added:

Full-time Business Analyst III (02-#056), range 22, located in Juneau
 Full-time Business Analyst III (02-#057), range 22, located in Juneau
 Full-time Business Analyst III (02-#058), range 22, located in Juneau

Transfer full-time Chief Accountant and Finance Officer (02-4001), range 27, located in Juneau, from the Office of the Governor, Office of Management and Budget, to the Department of Administration, Division of Finance. The Chief Accountant and Finance Officer oversees the Division of Finance, and in FY2018 transitioned organizationally under the Office of Management and Budget to more closely focus strategic financial accounting and management responsibilities and to improve the alignment of finance and budget during the implementation of the new state accounting and payroll system. The Division of Finance maintained funding for the position and supports the personal services costs incurred through a reimbursable services agreement with the Office of Management and Budget. The position is being transferred back to the Department of Administration in the FY2019 Management Plan.

The Patient Centered Outcome Research Institute (PCORI), created as part of the Affordable Care Act, imposes a fee for self-insured health plans to fund the PCORI trust fund. The amount of the fee is progressive, currently \$2.39 per active life, and uses the average number of covered lives (employees and dependents) for both retiree and active AlaskaCare health plans as a basis to determine the annual amount. The PCORI fee is in effect for plan years ending before October 1, 2019, with the annual payment due July 31 of the calendar year following the last day of the self-insured health plan year.												
Payment of the fee for the retiree health plan is administered by Department of Administration, Division of Retirement and Benefits. The Division of Finance administers the fee payment for the active health plan.												
This covers the FY2020 payment for the AlaskaCare portion of the active health plan fee. This includes the Internal Revenue Service (IRS) announced index increase to the fee for plan years ending on or after October 1, 2018, and before October 1, 2019.

The Division of Finance administers a statewide credit card program for purchasing travel, contractual services, and commodities. Based on volume, the state receives a rebate from the credit card provider, U.S. Bank. In FY2018, the rebate revenue was approximately \$1,266.7 in general fund program receipts compared to a budget of \$1,198.1, a difference of \$68.6. A recent credit card contract amendment and accounting system credit card processing improvement is expected to generate an additional \$55.0 in rebate revenue. The addition of \$125.0 aligns the program receipt authority with anticipated revenues for FY2020.

The Patient Protection and Affordable Care Act (Affordable Care Act) imposes a fee for self-insured health plans to fund the Patient-Centered Outcomes Research Institute (PCORI) trust fund. Guidance provided by the U.S. Department of Labor advises that the payment of the PCORI fee does not constitute a permissible expense of the health plan for purposes of Title I of the Employee Retirement Income Security Act (ERISA).												
The amount of the fee is progressive and expected to be \$2.39 per covered life in FY2020. The total fee is calculated using the average number of covered lives (retirees and dependents) of the retiree health plan as the basis for determining the annual amount. The estimated average covered lives in FY2020 is 62,378.

The pension and retiree health plans are trust funds and must adhere to federal and state rules regarding benefit trusts. The rules make a clear distinction between expenses that are for the benefit of the plan participants and expenses that are for the benefit of the plan sponsor. The expenses that benefit the plan sponsor are called Settlor expenses or costs. Costs that benefit the plan sponsor, such as front-end research into cost savings, cannot be paid for by retiree health trust funds as these expenses are for the benefit of the plan sponsor.

The Division of Retirement and Benefits provides services for 240 Public Employees' Retirement System (PERS) and Teachers' Retirement System (TRS) employers as well as over 24,000 active plan participants with contributions in excess of \$500 million. The Division must provide training, education, counseling, and auditing services to plan participants for these complex retirement and supplemental benefit plans. The public sector has unique characteristics that impact

how employee benefits are managed. Financing, politics, and the legal and regulatory environment pose challenges and opportunities that require public sector professionals understand how public plans operate. Given the complexity of multiple pension and health plans, outreach services can help address knowledge gaps and promote awareness of cost savings opportunities and efficiencies to existing practices.												
Participating employers must comply with the Internal Revenue Code (IRC) and require regular compliance audits. The Alaska Retirement Management Board anticipates the Division will audit employers every four years, requiring approximately 60 audits per year. On-site audit fieldwork benefits the employer and members by providing education to the employer on proper and compliant reporting to the plan. The travel needed for these audits is crucial to the State's pension systems and done in the most cost-efficient manner. Without employer audits, the Division has no assurance that reported contributions comply with plan statutes, ultimately impacting the pension benefits and the system's pension plan unfunded liability. A new Accountant V position will be charged with developing and implementing a compliance testing program to ensure the retirement systems, employers and members adhere to IRC requirements. This position will be responsible for educating employers and members regarding these requirements, and will also oversee the internal audit function to ensure employers are reporting properly to the retirement systems.												
The Survivor Benefits and Alaska Cost of Living Allowance (COLA) units have experienced a constant increase in workload due to members aging and dying in greater numbers for the former, and more retirees to track for the COLA program. Two new Retirement and Benefit Technician positions allows the Division to provide education on proper reporting and accommodate increasing audit workloads.												
Efforts to replace direct travel to work sites around the state by use of video and telephone conferencing have not met customer needs. Faced with an increasing number of retirees and survivors of retirees, long wait times are experienced by those seeking appointments with trained retirement and benefit counselors. It currently takes two to three months to secure an appointment in the Juneau main office or the Anchorage field office. The Division has deployed alternate methods of addressing the need by offering group meetings with webinars. However, participants continue to demand one-on-one appointments. The addition of three Retirement and Benefit Specialists positions allows the Division to nearly double capacity and will provide timely appointments for participants.

Since FY2016, the Division of Retirement and Benefits has focused on utilizing multiple strategies to create cost savings and improve benefit options for members of the AlaskaCare employee and retiree health plans. Over the past four fiscal years (FY2016 – FY2019) the Division has saved \$32,100.0 in the employee plan and \$52,600.0 in the retiree plan. For FY2020, the Division is estimated to save an additional \$13,700.0 in the employee plan and \$49,000.0 in the retiree plan.

The AlaskaCare plan has engaged in and is continuing to pursue several contracts that create significant cost savings for the health plans through improved pricing for medical and pharmacy claims or access to services providing low-cost care for members. The savings accrue to the health trusts or associated plans, but these cost-saving contracts have administrative fees. This reflects the administrative fees associated with new contracts, described as follows:

Medicare Part D Employer Group Waiver Plan Participation - \$3,750.0

The AlaskaCare retiree health plan historically filed for federal subsidies for Medicare eligible retirees through the Retiree Drug Subsidies. Implementing Medicare Part D Employer Group Waiver Plan (EGWP) increases Medicare reimbursements to the plan for pharmaceuticals and results in estimated \$16,000.0 to \$23,000.0 additional subsidies to the trust.

In addition, the future liabilities for Other Post-Employment Benefits (OPEB) are reduced by an estimated \$520,000.0 to \$694,000.0 for the Public Employee Retirement System (PERS) and Teachers Retirement System (TRS). This in turn results in a reduction in the state assistance payment of \$40,000.0 to \$52,000.0 annually.

The division anticipates an annual cost of \$7,500.0 for administrative fees to implement and administer EGWP. The FY2019 budget includes \$3,750.0 of the \$7,500.0 annual cost, leaving a difference of \$3,750.0 needed for FY2020. If funding is not received, the division will not be able to pursue this cost savings

initiative. The state will be required to increase the state assistance payment, and the division will work through a costly and complex process to revert back to the prior subsidy process. Additionally, the health trust will see a loss of between \$16,000.0 to \$23,000.0 and the pension system unfunded liability will increase.

Travel Coordination Contract - \$1,400.0

An AlaskaCare travel coordination contract allows members to access a network of providers who meet strict quality criteria and have agreed to significantly discounted pricing for certain surgeries, creating cost savings for the plan through reduced claims spend. Active employee plan members can currently access these services, which are anticipated to save \$1,600.0 annually when mature. The contract cost for active employees is \$300.0.

The Division is evaluating extending this service to the retiree membership as part of the modernization effort in coordination with the Retiree Health Plan Advisory Board, which could generate \$4,000.0 in annual savings when mature. The Division anticipates an annual contract cost of \$1,400.0 for both the active and retiree population. If funding is not received, the Division will not be able to pursue this cost-savings initiative and would have to terminate the contract.

Teledoc Contract - \$680.0

An AlaskaCare Teledoc contract allows members to access a physician telephonically for certain non-emergent conditions. This improves access to medical care while providing a less-expensive option for members seeking quick medical advice. The service is currently available to active AlaskaCare employee plan members. The division is evaluating extending this service to the retiree membership as part of the modernization effort. Savings will be realized through a reduction in annual health care costs. The division anticipates an annual contract cost of \$680.0 for both employee and retiree health plans. If funding is not received, the division will not be able to pursue this cost-savings initiative and would have to cancel the current service available to employee plan members.

Health Care Cost Management Implementation with Alaska Regional Hospital - \$180.0

The AlaskaCare employee health plan currently participates in the Health Care Cost Management Corporation (HCCMCA) contract with Alaska Regional Hospital in Anchorage. This program has resulted in continued and sustained gains in claims expenses, with anticipated savings in FY2019 of \$2,400.0. The division anticipates an annual cost of \$180.0 associated with this contract. If funding is not received, the division will not be able to continue this cost-savings program and would have to terminate this contract.

This is a placeholder item intended to provide advanced notice that the division of Retirement and Benefits will bid and award the AlaskaCare third-party administrator (TPA) contract for medical and dental services, which may have cost impacts in FY2020. A new contract could include an increase in administrative fees that will impact the FY2020 budget beginning on January 1, 2020. If so, an increase in authorization will be needed in order to pay the TPA fee.

Procurement is currently underway for medical, dental, vision, and audio third-party claims administrator for the AlaskaCare employee and retiree health and dental plans. These plans provide coverage for an estimated 88,000 policies with a combined annual claim spend of over \$700 million (excluding pharmacy and long-term care benefits).

The total cost of the TPA contract includes both the administrative fees and the discounts each vendor can provide to reduce the \$700 million annual claim spend. This combined total represents the financial impact to the health plans, and it is not unprecedented for a vendor to have higher administrative fees but

provide significant discounts resulting in an overall net savings to the plans. Shared Services of Alaska (SSoA) is funded by inter-agency receipts based on the back-office work (travel and accounts payable) that is being completed by the positions transferred from other departments, and by investing general fund program receipts derived from debt collections and vendor fees assessed on statewide contracts. SSoA utilizes a contractor to collect debt on behalf of the State of Alaska. These efforts are combined with debt collections previously managed by the Department of Law. Through increased focus and successful management, additional program receipt collections are anticipated for FY2020.

The Shared Services organization began in FY2018 and provides back-office administrative functions common to all state agencies. This organization model builds a smarter Alaska by reducing administrative costs, improving service quality, and enabling the effective delivery of front-line state services.												
The Office of Information Technology (OIT) was formed in accordance with Administrative Order 284, and is in the process of adopting best practices and centralizing the organization of information technology (IT) resources statewide. This organizational model builds a smarter Alaska by reducing overall IT costs, strengthening IT functions, and maximizing efficiency.												
The FY2019 budget included a statewide unallocated reduction to reflect savings achievable as a result of these efficiency efforts. An initial distribution of the savings has been made at the start of FY2019. The remaining savings will be distributed through the year as areas of efficiency continue to be identified.

Add a full-time Attorney II, range 20, located in Anchorage, to support Public Guardian activities. The Public Guardian Section of the Office of Public Advocacy is operating with only one attorney assigned to the 20 Public Guardians who represent almost 1,700 wards in the state. The current caseload exceeds the ability of one attorney who is responsible for representing the Public Guardians in all contested matters, advising Public Guardians on their wards' legal rights and remedies, as well as performing supervisory and managerial duties.

Public guardians provide guardianship and/or conservatorship services for vulnerable Alaskans who are found by the court to be in need of a protective order. When compared to other states, national standards and guidelines, the current caseloads for Public Guardians significantly exceeds the client-guardian ratio (20:1). These funds would be used to add an additional public guardian position.

Court Appointed Special Advocate (CASA) Community Response to the Opioid Crisis

The Office of Public Advocacy (OPA), Court Appointed Special Advocate (CASA) program was awarded a federal grant in FY2019 totaling \$600.7 over three years from the Office for Victims of Crime Enhancing Community Responses to the Opioid Crisis: Serving Our Youngest Crime Victims. The purpose of the grant is to develop and execute plans and services to support infants, children and youth directly affected by the opioid crisis in Alaska. This will be accomplished through use of the CASA program currently operating in five Alaskan cities by enhancing and expanding direct services throughout the State of Alaska.												
OPA has very little federal receipt authority as it rarely obtains federal grants and the grants are generally in small amounts. Current budgeted federal authority totals \$51.3 and will be applied to the receipt and expenditure of this grant. However, the current federal budget is insufficient to support grant activities for one fiscal year.												
The opioid crisis in Alaska is epidemic. As more and more parents become addicted to heroin and other opioids, thousands more children are being placed into an already overburdened foster care system, one that lacks resources, foster parents, funding, and focused advocacy for the youngest crime victims. According to the State of Alaska's Office of Children's Services, the number of children entering the foster care system is rising drastically, attributable to the state's heroin epidemic.												
National data shows children have improved outcomes with focused advocacy including: a child with a CASA/Guardian ad Litem (GAL) volunteer is more likely to find a safe, permanent home; receive more help while in the system; more likely to have consistent, responsible adult presence; spend less time in an already overburdened foster care system; perform better in school; and score better on nine protective factors. Alaska CASA has a plan for expansion through partnerships to provide direct services through focused advocacy for each child and to provide training and support to State and Tribal entities and other community partners to increase positive outcomes.												
This is a time-limited expansion to OPA's CASA budget for three years. By the time this grant expires, OPA will have forged lasting connections in communities and with tribal organizations so that the expansion of the CASA program can be sustained without any further state funding.												
The grant funds one nonpermanent Program Coordinator position, and supports a contract for a project coordinator. The position and contract will be discontinued at grant expiration. This grant does not replace existing state general funds and does not commit the state to future general fund spending.

Funds will be used to implement the Holistic Defense model in Bethel, in a partnership between the Public Defender Agency and Alaska Legal Service Corporation. The model addresses a defendant's criminal legal needs by criminal attorney, a social worker to address unmet social support needs, and a civil legal aid attorney will work with the team to address any civil legal needs. All program services are designed to address the defendant's obstacles to successful reintegration and thus reduce the likelihood of future criminal activity/recidivism.
